Expected learning outcomes from this course will be:

- an enhanced understanding of sustainable and traditional agricultural practices in Austria
- practical experience in hands-on workshops related to forestry, food production, and rural crafts
- deeper insight into regional value chains and farm-to-table production systems
- strengthened international cooperation and networking within EUROPEA
- exchange of best practices in agricultural education across participating countries
- increased awareness of cultural heritage and rural development in alpine regions
- improved professional connections supporting future collaboration and projects
